

# The FATA AI Trading & Reward System

*Your first step towards financial freedom.*

Do you have a **real** plan?

For your family?

For your lifestyle?

For your finances?

How do you make more money  
without having to give a lot more  
of your **personal** time?

How do you plan to reach your  
lifestyle goals?

What if there was a way to earn  
**huge income**  
while spending more time doing  
what you love?

# About FATA AI

FATA AI is an all-in-one cryptocurrency trading and portfolio management platform that enables users to conduct arbitrage trades, which is taking advantage of an asset's price discrepancy in two or more exchanges. The idea is that you buy the asset from the exchange with a lower price and sell it in the one with a higher price.

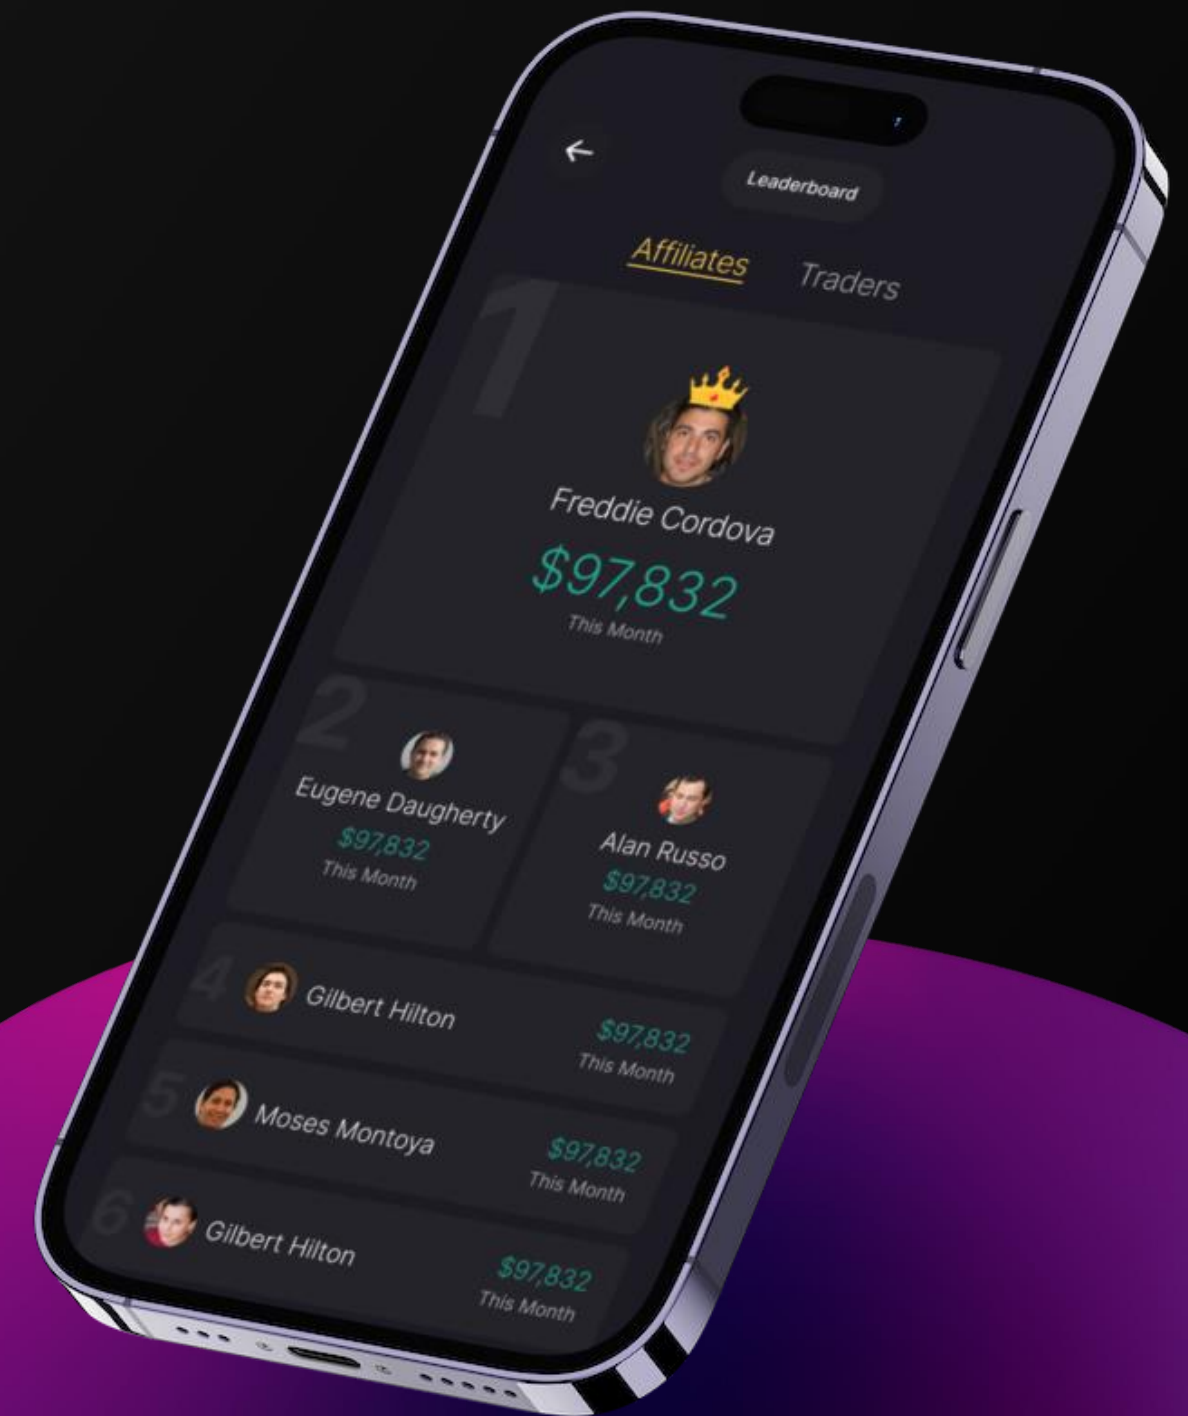

FATA AI offers a user-friendly interface, ensuring seamless and secure trading experiences. As a leading platform in the crypto space, it facilitates strategic decision-making and maximizes potential returns for traders of all levels.

# The FATA AI Reward System

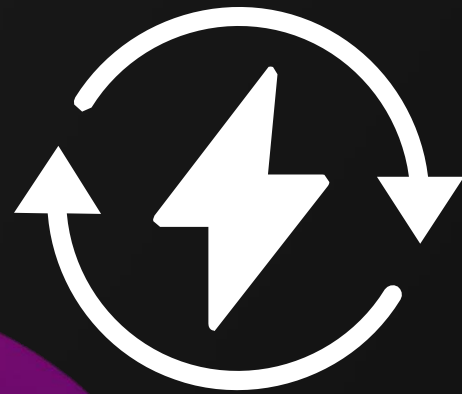

With a uni-level system, our users enjoys unprecedented 170% commission bonuses across 5 generations.

In otherwords, in the FATA AI uni-level system, your rewards spread far and wide across your direct recruits and their recruits up to 5 generations.

# 3 ways to earn

There are basically 3 ways to earn through the FATA AI System.

BUY

SELL

# Understanding CRYPTO Arbitrage Trading

Following the example in the diagram, you buy **PRQ** (token) from kuCoin (exchange 1) for \$0.082765, transfer it to EXMO (exchange 2) and sell it for \$0.085379. The difference 3.15% (percentage difference) between the prices in the 2 exchanges is your profit.

Example: If you purchase the PRQ token with \$1,000 in KuCoin for \$0.082765/PRQ, you will have 12082.402 PRQ. When you transfer it to EXMO and sell it there for \$0.085379/PRQ, you will have \$1,031.58. That is to say you made a profit of \$31.58 on that trade.

This trade can take maximum of 5 minutes. But it's almost impossible without the help of a trading bot.

## Where we Come In....

1. We have created a bot that constantly monitors various cryptocurrency tokens for price differences in up to 10 exchanges and make them available for you to take advantage of instead of allowing you to go through the hassle of searching for the tokens yourself.
2. Our trading bot helps us to run the trade across exchanges anytime you initiate a trade and give you your profit in less than 10 seconds.

**With Us By Your Side, You Are Guaranteed For Profit Daily!**

How to initiate a Trade?

# You need to select your desired trade

| Difference             | Buy Here                                   | Sell At                                   |
|------------------------|--|---|
| ▲ % 10.56<br>ETH / LTC | Mercatox ⚠<br>20.00000000<br>vol: ₺ 4.3359 | Exmo<br>22.11216000<br>vol: ₺ 129.8288    |
| ▲ % 7.43<br>ZRX / BTC  | Mercatox ⚠<br>0.00000699<br>vol: ₺ 2.4654  | Exmo<br>0.00000751<br>vol: ₺ 2.7831       |
| ▲ % 5.34<br>TRX / BTC  | KuCoin<br>0.00000266<br>vol: ₺ 1.3226      | Mercatox ⚠<br>0.00000280<br>vol: ₺ 2.7858 |
| ▲ % 2.98<br>FXS / USDT | Poloniex<br>6.23100000<br>vol: ₺ 6.4926    | Binance<br>6.41700000<br>vol: ₺ 288.0645  |
| ● % 1.49<br>TON / USDT | Poloniex<br>1.17750000<br>vol: ₺ 13.5457   | KuCoin<br>1.19510000<br>vol: ₺ 83.7644    |
| ▲ % 1.5<br>VOLT / USDT | Poloniex<br>0.00000024<br>vol: ₺ 133.8149  | KuCoin<br>0.00000024<br>vol: ₺ 2.1737     |

Let's assume your desired trade is the green highlighted trade in the diagram, all you need to do is to click on it in order to select it.

Selecting a trade is dependent on the package you are on at the moment:

1. You must make sure that your package supports the 2 exchanges (in this example, Poloniex and Binance) before you can initiate the trade.
2. You must make sure that when the difference (in this example, 2.98%) is added to your daily profit that it doesn't exceed the **max. daily trading profit** allowed by your package.
3. You must make sure that you have not exceeded your **max total trades** as allowed by your package.

# Once that is done, our system will take care of the rest

Our system will deduct the USDT available in your funding wallet (if it is up to the **min. amount per trade** as allowed by your package else abort) and initiate the trade for you.

After the initialization of the trade, our trading bot will do the following:

1. Transfer the exact amount of USDT from our trading wallet to the buying exchange (Poloniex) and purchase the token (as in the example, FXS).
2. Transfer the FXS from Poloniex to the selling exchange (as in the example, Binance) and sell it for USDT.
3. Transfer the USDT from Binance back to our trading wallet.

After all these are done, our system will send your equity (the amount you traded with) to your **funding wallet** and your profit to your **profit wallet**. Everything happens within 10 seconds.

| Difference             | Buy Here                                   | Sell At                                   |

**Very Fast and Easy!**

# Question?

How much will I make if I join the **Pro Max** package and constantly trade with \$1,000

# Answer?

The Pro Max package has 10% max. daily profit limit  
and 800 total trading limit.

Let's assume your average profit per trade is 1.5%

$$1.5\% \times 800 = 1200\%$$

$$1200\% \text{ of } \$1,000 = \mathbf{\$12,000}$$

This can happen even as fast as in 3 months with no risk of  
losing your money from crypto deep.

# What is a Team Bonus?

These are series of bonuses earned from your entire team or network over 5 unlimited levels (generations).

## TEAM SALES BONUS

You get paid when anyone in your 5 generation network purchases a license (50%).

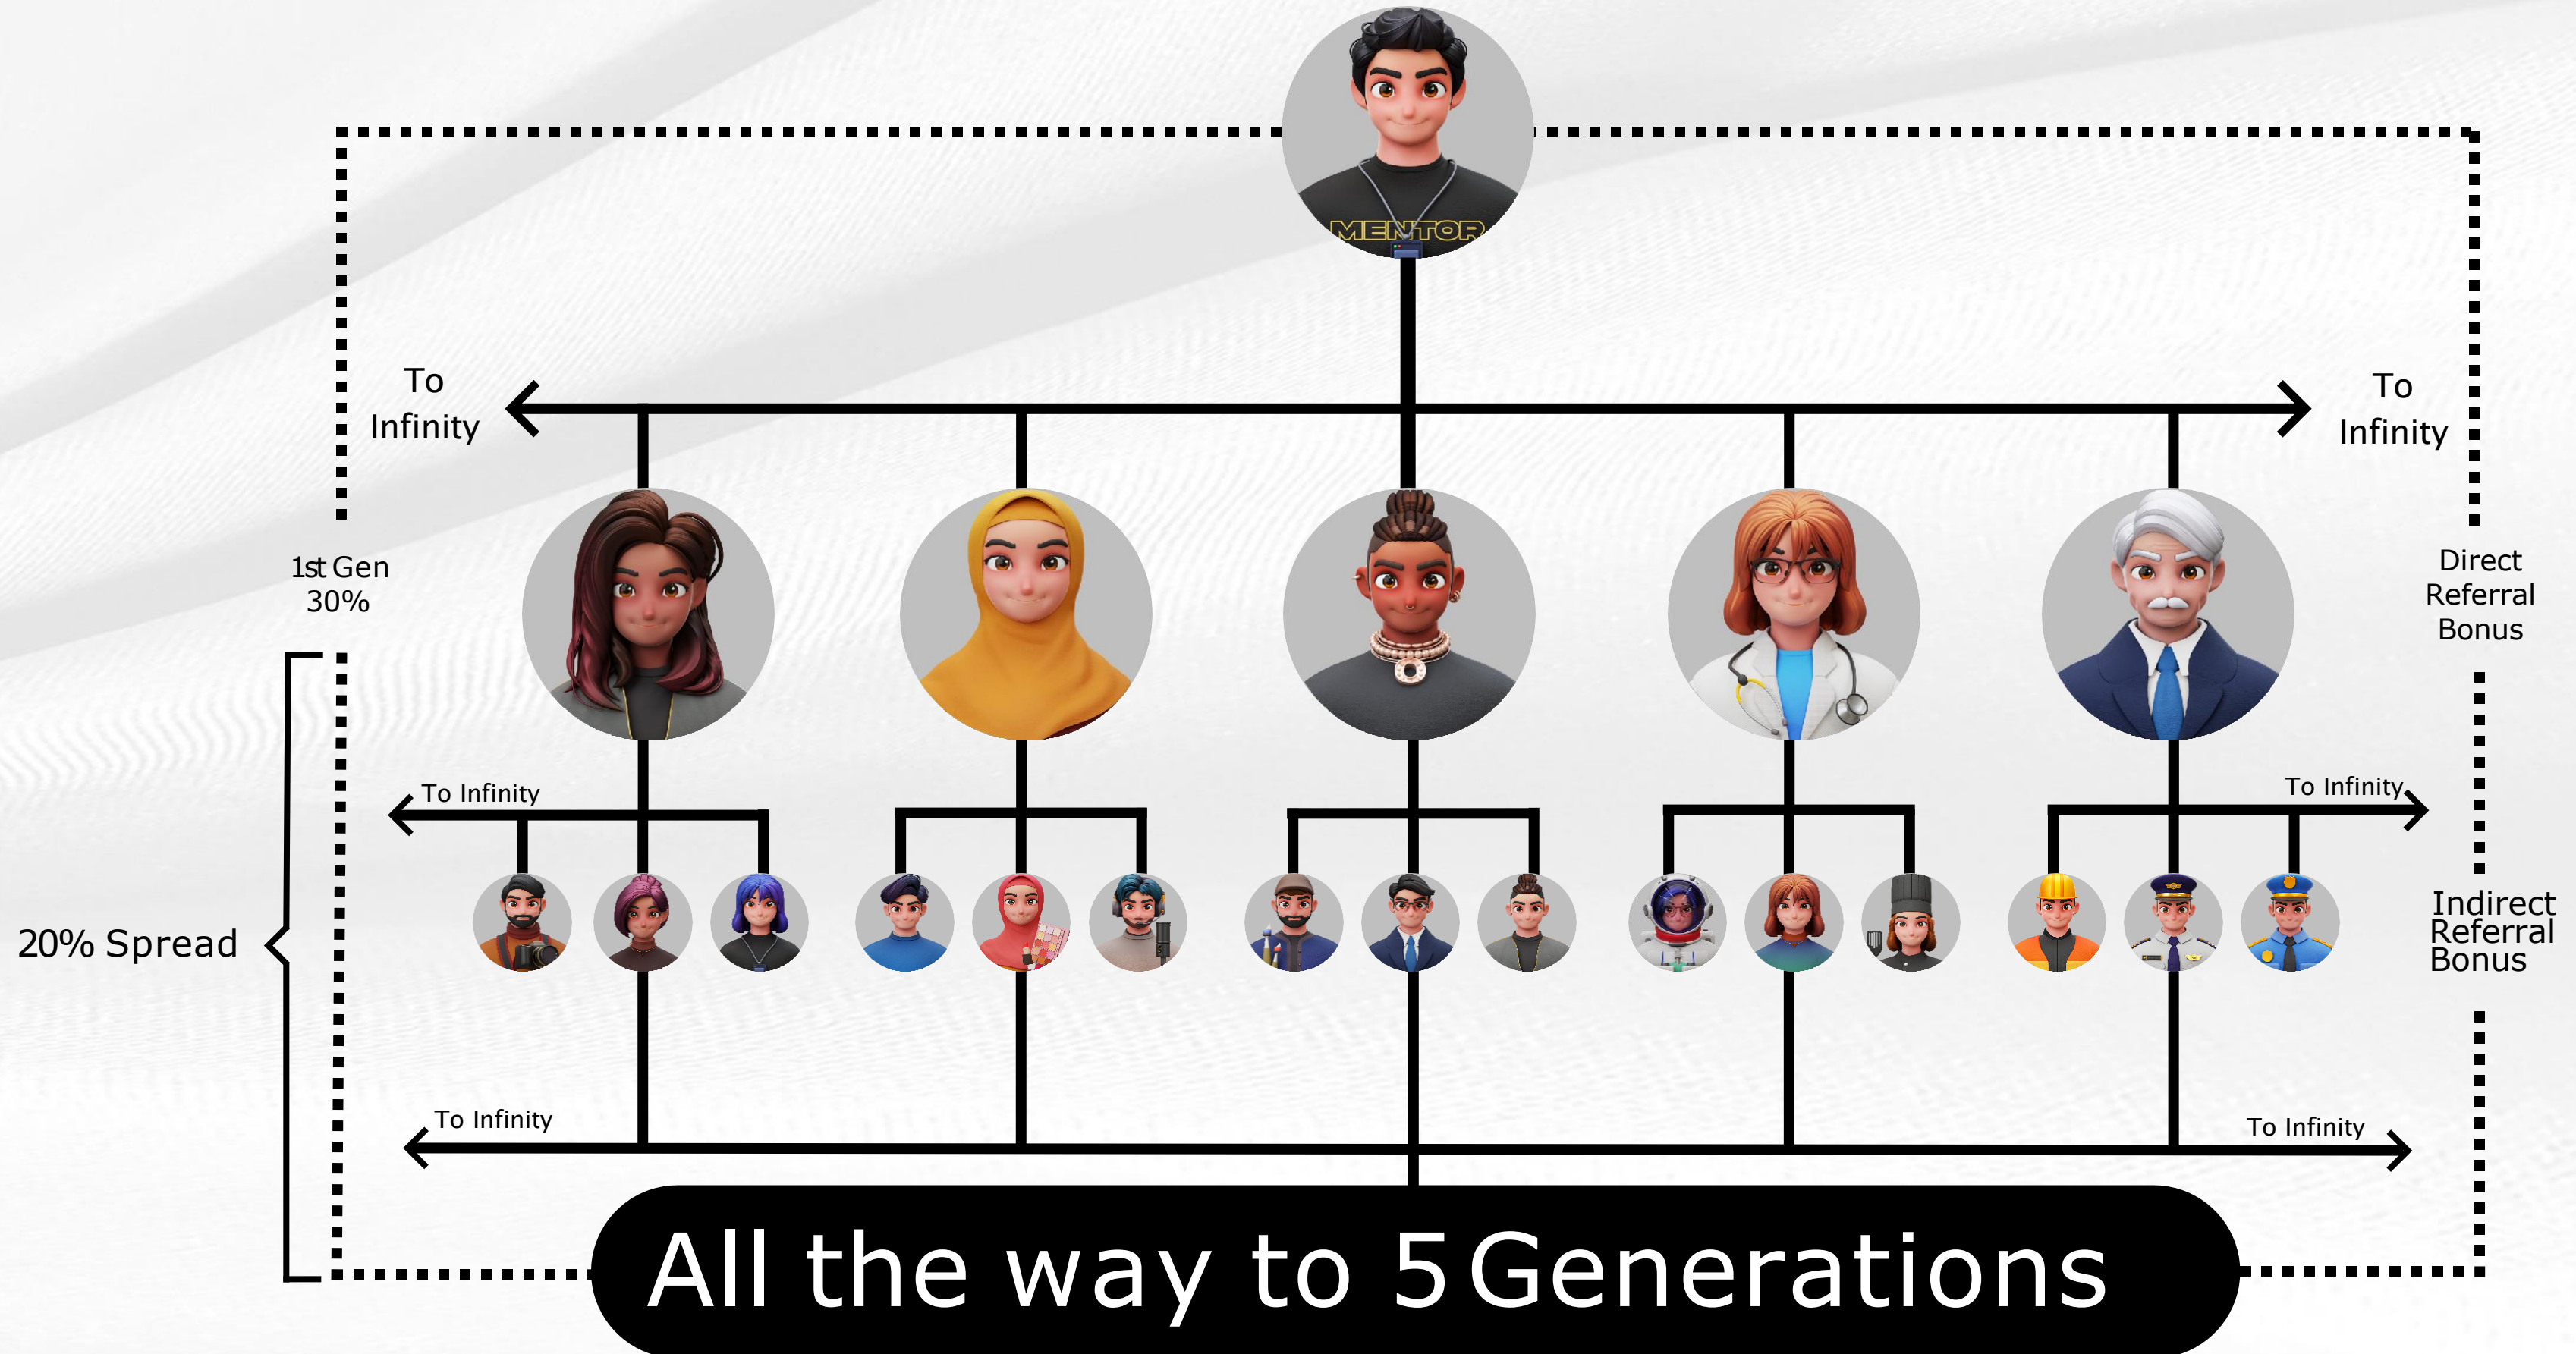

## TEAM PROFIT BONUS

You get paid when anyone in your 5 generation network trades and makes profit (15%).

This means that almost literally everyone in your downline contributes to your growing portfolio.

| <b>Generations</b> | <b>Sales Bonus</b> | <b>Profit Bonus</b> |
|--------------------|--------------------|---------------------|

## What is Lifestyle Bonus?

At FATA AI, we value hard work and dedication, and we want to reward our users who exhibit these qualities. That's why we're excited to introduce our new Lifestyle Bonus program. By achieving Bronze, Silver, Gold, Diamond, Emerald, or Diamond level, you'll be eligible to receive amazing perks such as Apple Kit (iPhone 14 etc.), luxurious trips to Dubai, or even owning luxury cars.

# What is Lifestyle Bonus

But that's not all. When you reach these levels, you'll also receive a prestigious badge that showcases your achievement, it will be showing publicly in the FATA AI App. This badge not only represents your hard work and dedication but also provides you with recognition within the FATA AI community.

---

Every milestone in Team Sales is interconnected and contributes to subsequent Team Sale milestones. This implies that Team Sales volumes that qualify a leader for the initial Lifestyle Bonus retain their value as the leaders progress towards achieving the next Lifestyle Bonus.

# DEFINITION OF TERMS

Fuel

Exchange

Energy

This refers to a fixed trading fee of 20% charged on every profit FATA AI makes for a user in a trade. If FATA AI makes a user \$100 profit in a single trade, for instance, this user is charged \$20.

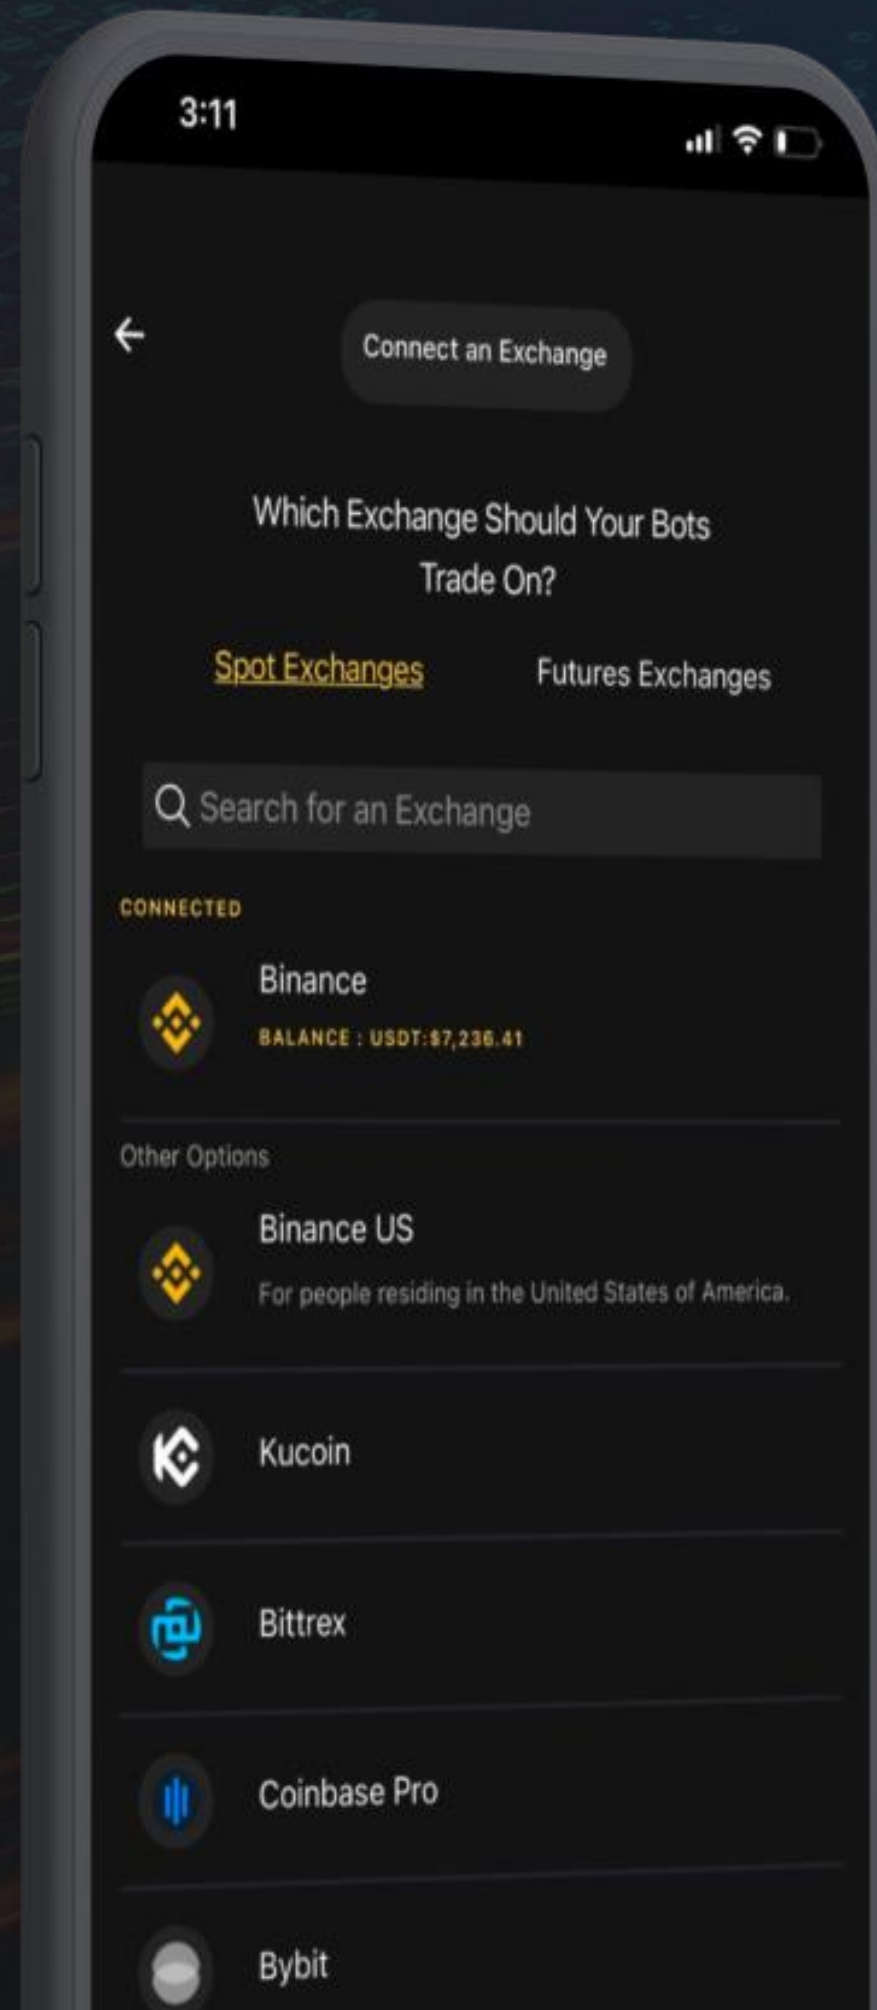

# EXCHANGE

A cryptocurrency exchange is a platform that provides you with tools and allows you to trade between various cryptocurrencies or digital currencies.

FATA AI's partnerships with a number of these exchanges which allows you to leverage their services and token prices.

This means that the prices of tokens are verifiable by you anytime and anywhere and not just speculative.

So, you never have to believe any token price we give you without verifying it and you can as well perform the trades yourself if you have accounts with those exchanges. That is if you know about trading.

# Energy

Besides the Team Bonus which drops instantly in your funding wallet, your profits drop in your profit wallet which you will need to transfer to the funding wallet in order to withdraw it.

For you to **transfer** or **withdraw** your funds in the system, you will need the energy bar to be full.

Our goal is to have a cumulative revenue that is claimed in bulk and is celebrated across our ecosystem.

Energy bar gets filled based on the package you are at the moment. The higher the package the faster your energy gets refilled.
